3/4/67

Dear Joe,

No apologies. You wrote me and I forgot. I've been even busier lately, as I hope you will shortly see.

The clippings are helpful. Very glad to get them. The DC papers are as though government owned on this issue.

I tried to phone you about 8:30 nightly from the time the N.O. news was in the papers and always there was no answer. That's why I tried at home, thinking your wife would answer and give me the phone-in number.

Now you know why I always like to get my address in. If I can get the price in, it saves us an extra letter, for which we have no time, ditto for the listener, with or without time, and many people will order immediately but forget if they let it wait.

My New Orleans book is mostly done. As you can see from the snide enclosed, it is following my book. What is not in what I've published, save for a name of two, is in what I'm about to.

Thanks, and best,

HW
